

Program D: Huey P. Long Medical Center

Program Authorization: R.S. 36:254, 258, 259; R.S. 40:2012, 2014; Act 3 of 1997

PROGRAM DESCRIPTION

The mission of Huey P. Long Pineville (an inpatient facility) and England Airpark Medical Center (an outpatient facility) is to ensure that the Medical Centers provide accessible and quality health care.

The goals of the Huey P. Long Pineville and England Airpark Medical Centers are:

1. Prevention: To provide health care effectiveness with an emphasis on preventive and primary care.
2. Partnership: To integrate health delivery network with internal and external community partners.
3. Performance: To improve management information systems and fiscal accountability.

Huey P. Long Medical Center was opened in 1939 to provide care to indigent families residing in the central Louisiana parishes of Allen, Avoyelles, Catahoula, Concordia, Grant, LaSalle, Rapides, Vernon, and Winn. The hospital is currently staffed for 124 beds.

The Medical Center, including an outpatient facility at England Air Park, provides health care services and support functions such as pharmacy; blood bank; respiratory therapy; anesthesiology; and various diagnostic services and other support functions of a non-medical nature, such as administration; maintenance; housekeeping mail service; purchasing; accounting; and admissions and registration. The facility also maintains a stipend program for medical residents and contracts for physician and anatomical services and works cooperatively with medical schools and other health education institutions to broaden the opportunity for clinical training in the hospital.

OBJECTIVES AND PERFORMANCE INDICATORS

Unless otherwise indicated, all objectives are to be accomplished during or by the end of FY 2000-2001. Performance indicators are made up of two parts: name and value. The indicator name describes what is being measured. The indicator value is the numeric value or level achieved within a given measurement period. For budgeting purposes, performance indicator values are shown for the prior fiscal year, the current fiscal year, and alternative funding scenarios (continuation budget level and Executive Budget recommendation level) for the ensuing fiscal year (the fiscal year of the budget document).

The objectives and performance indicators that appear below are associated with program funding in both the Base Executive Budget and Governor's Supplementary Recommendations for FY 2000-01. Specific information on program funding is presented in the financial sections that follow performance tables.

1. (KEY) To continue to provide professional, quality, acute general medical and specialty services to patients in the hospital and maintain the average length of stay of 4.3 days for patients admitted to the hospital.

Strategic Link: *This objective reflects the movement toward the achievement of the 1998-2002 Health Care Services Division (HCSD) Strategic Plan Goal 1: Implement initiatives to improve effectiveness of health care delivery in the HCSD system by enhancing the preventive and primary care components.*

¹ Staffed beds is consistent with the American Health Association's definition of available beds.

² HCSD had earlier planned to absorb the FY 2000 \$40 million budget shortfall entirely in inpatient days. The impact of such a course of action would have been a wholesale reduction in the number of staffed beds, reducing inpatient days, reducing clinic visits and increasing emergency department visits, because of loss of staff. Performance standards shown in the Executive Budget were adjusted in anticipation of this course of action. Since the standards adjustment occurred, HCSD offset \$7 million of the losses with efficiencies and gave the medical centers the responsibility for developing contingency plans to allow them to decide how the cuts might best be made. As a result, the performance standards must be re-adjusted because inpatient days, outpatient encounters, and available (staffed) beds are set much too low, given the current situation and will either be impossible to meet or very easy.

- ³ In order for average daily census to be meaningful, it must be understood in context. Actual daily census can be at or over 100 percent of staffed beds on some high-demand days, and additional beds (over the average daily census) have traditionally been kept available by all hospitals to deal with unanticipated demand.
- ⁴ This performance indicator did not appear under Act 19 and therefore had no performance standard for FY 1998-99.
- ⁵ This performance indicator did not appear under Act 10 and therefore had no performance standard for FY 1999-2000.
- ⁶ This Existing Operating Budget Level figure is an estimate and not a standard that appeared under Act 10 for FY 1999-2000.
- ⁷ HCSD is working on providing this information and plans to submit an amendment to House Bill 1 to add this as a quality of care indicator.
- ⁸ There is great diversity in the level and volume of service provided at medical centers. There is a cost differential inherent in the proportion of primary (non-emergent outpatient care) and secondary services (inpatient services) provided by a hospital. Tertiary services, such as the advanced trauma services provided at MCLNO, add another level of costs that need to be factored in the comparison. Whether a hospital provided medical education must also be considered. These factors impact the cost per adjusted discharge and the number of employees per adjusted discharge. Each hospital in the HCSD system should be compared to groups in the nation which are as closely similar as possible in order to get a sense of how well each hospital is functioning.
- ⁹ Because the General Ledger staff have been diverted to implement PeopleSoft as quickly as possible, HCSD has been forced to discontinue the General Ledger accounting system for FY 2000 and probably most of FY 2001. HCSD will be unable, therefore, to provide actual "cost per adjusted discharge," but will be able to provide "operating expense per adjusted discharge" in La Pas reporting for those years. This figure will be technically different but substantively comparable to "cost per adjusted discharge."
- ¹⁰ The change from a 96% compliance to 100% compliance reflects a change in calculations. The 100% level reflects a pass/fail approach to certification.

GENERAL PERFORMANCE INFORMATION:					
PERFORMANCE INDICATOR	PRIOR YEAR ACTUAL FY 1994-95	PRIOR YEAR ACTUAL FY 1995-96	PRIOR YEAR ACTUAL FY 1996-97	PRIOR YEAR ACTUAL FY 1997-98	PRIOR YEAR ACTUAL FY 1998-99

HCIA National Standard for cost per adjusted discharge (median)	5,966	6,270	6,505	Not available ²	Not available ²
HCIA National Personal services (salaries & benefits) cost as a percent of operating cost (median)	50.28%	49.54%	49.17%	Not available ²	Not available ²

¹ This information is not stored in the computerized financial accounting system, but is archived, if it still exists, on microfiche at the hospitals. Some hospitals were able to locate it and some were not.

² The 2000 Sourcebook, which will contain standards for 1998, has been published, but has not yet been received by HCSD.

2. (KEY) To enroll at least one-third of the eligible diagnosed diabetic, asthmatic, HIV+ and high risk congestive heart failure patients in the Health Care Services Division (HCSD) system into disease management protocols.

Strategic Link: *Implements strategic plan Goal 1 initiatives: To improve the effectiveness of health care delivery in the HCSD system by enhancing the preventive and primary care components.*

Explanatory Note: Eligible is defined as having the diagnosis and being compliant with the protocol; High risk congestive heart failure is characterized by admission to the hospital or emergency room with congestive heart failure in the past year.

LEVEL	PERFORMANCE INDICATOR NAME	PERFORMANCE INDICATOR VALUES					
		YEAREND PERFORMANCE STANDARD FY 1998-1999	ACTUAL YEAREND PERFORMANCE FY 1998-1999	ACT 10 PERFORMANCE STANDARD FY 1999-2000	EXISTING PERFORMANCE STANDARD FY 1999-2000	AT CONTINUATION BUDGET LEVEL FY 2000-2001	AT RECOMMENDED BUDGET LEVEL FY 2000-2001

K	Eligible diagnosed patients enrolled	Not applicable ¹	Not available ²	Not applicable ³	793 ⁴	1,090	1,090

¹ This performance indicator did not appear under Act 19 and therefore had no performance standard for FY 1998-99.

² This is a new performance indicator to measure the new objective above. The HCSD (representatives of the medical and administrative sides of each medical center and the administrative office) is in the process of developing a new strategic plan which will more clearly reflect the core purposes and values of the Division. The focus expressed in the goals in the 1998-2002 (health care effectiveness with emphasis on preventive and primary care; integrated health delivery network with internal and external community partners; and improved management information systems and fiscal accountability) is unchanged, but emphasis in the objectives chosen has changed slightly.

³ This performance indicator did not appear under Act 10 and therefore had no performance standard for FY 1999-2000.

⁴ This indicator is critically important to measuring the system's success in implementing the disease management initiative. However, eligibility for the initiative is currently calculated differently by each medical center. An important part of the reason for the new strategic plan is to systematize the hospitals, so that comparisons and, therefore, improvements based on sharing information can occur. One step in this process is to agree on and implement a definition for eligibility for disease management. This will take place in the fiscal year and correct eligibility figures will be available for the next Operational Plan.

⁵ The patients with covered diseases estimate is based on computerized patient billing records which provide an unduplicated count of patients with targeted diseases seen in the hospital in 1998. This is currently an underestimate of the actual prevalence of these disorders in the patient population because: a) only patients who have been diagnosed with the disorder are reflected; and b) billing records reflect the treatment provided - not the medical history of the patient.

3. (SUPPORTING) To assess and take steps to ameliorate over utilized or non-existent services in the Huey P. Long (HPL) catchment area.

Strategic Link: *This objective reflects the incremental movement toward the achievement of the 1998-2002 Health Care Services Division Strategic Plan Goal 2 which is to implement initiatives to improve coordination with other segments of the Louisiana health care delivery system.*

Explanatory Note: Catchment area is defined as the parishes from which the majority of the hospital's patients are drawn. These include Allen, Avoyelles, Catahoula, Concordia, Grant, LaSalle, Rapides, Vernon and Winn.

LEVEL	PERFORMANCE INDICATOR NAME	PERFORMANCE INDICATOR VALUES					
		YEAREND PERFORMANCE STANDARD FY 1998-1999	ACTUAL YEAREND PERFORMANCE FY 1998-1999	ACT 10 PERFORMANCE STANDARD FY 1999-2000	EXISTING PERFORMANCE STANDARD FY 1999-2000	AT CONTINUATION BUDGET LEVEL FY 2000-2001	AT RECOMMENDED BUDGET LEVEL FY 2000-2001
S	Percentage completion of community needs assessment in the HPL catchment area	Not applicable ²	0%	Not applicable ³	0% ⁴	100%	100%
S	Number of collaborative agreements signed with other health care providers ¹	Not applicable ²	37	Not applicable ³	39 ⁴	41	41

¹ Collaborative agreements have been defined as contracts, cooperative endeavors, or affiliation agreements with health care providers (i.e., hospitals, physicians, nurses, allied health providers or agencies) or health-related entities (i.e., schools, state agencies) outside the HCSD system.

² This performance indicator did not appear under Act 19 and therefore had no performance standard for FY 1998-99.

³ This performance indicator did not appear under Act 10 and therefore had no performance standard for FY 1999-2000.

⁴ This Existing Operating Budget Level figure is an estimate and not a standard.

A supplementary recommendation of \$30.8 million, of which all is Uncompensated Care, is included in this program, including 466 positions. Funding is dependent upon renewal of the 3% suspension of the exemptions to the sales tax.

A supplementary recommendation of \$3.1 million, of which \$2.5 million in Uncompensated Care and \$499,900 is claims from the Medically Needy Program, is included in the program. Funding is payable out of revenues generated from a new tax source. These items are contingent upon Revenue Sources in excess of the Official Revenue Estimating Conference Forecast subject to Legislative approval and recognition by Revenue Estimating Conference.

SOURCE OF FUNDING

This program is funded with Interagency Transfers, Self-generated Revenue and Federal Funds. The Interagency Transfers represent Title XIX reimbursement from the Medicaid program for services provided to Medicaid eligible and "free care" patients. The Self-generated Revenue represents insurance and self pay revenues for services provided to patients who are not eligible for "free care". The Federal Funds are derived from Title XVIII, Medicare payments for services provided to Medicare eligible patients.

			SUPPLEMENTARY RECOMMENDATIONS CONTINGENT ON SALES TAX RENEWAL:
\$0	\$30,822,500	466	A supplementary recommendation of \$30.8 million, of which all is Uncompensated Care, is included in the Total Recommended for H.P. Long Medical Center, including 466 positions
\$0	\$30,822,500	466	TOTAL SUPPLEMENTARY RECOMMENDATIONS CONTINGENT ON SALES TAX RENEWAL

			SUPPLEMENTARY RECOMMENDATIONS CONTINGENT ON NEW REVENUE:
\$0	\$3,019,900	0	A supplementary recommendation of \$3.1 million, of which \$2.5 million is Uncompensated Care and \$499,900 is claims from the Medically Needy Program, is included in the Total Recommended for H.P. Long Medical Center
\$0	\$3,019,900	0	TOTAL SUPPLEMENTARY RECOMMENDATIONS CONTINGENT ON NEW REVENUE
\$0	\$45,052,053	556	GRAND TOTAL RECOMMENDED

The total means of financing for this program is recommended at 99.8% of the existing operating budget. It represents 84.5% of the total request (\$53,341,311) for this program. The decrease is a result of a reduction in risk management premiums. This decrease is offset by an increase in funding for maintenance contracts on existing equipment. This overall decrease should have no significant impact on the delivery of services.

PROFESSIONAL SERVICES

\$7,000	S. Longo and Associates for Joint Commission on the Accreditation of Healthcare Organization consultation
\$2,262,355	C & M Medical Services for emergency room staffing and management
\$5,000	Alexandria Neurology for Neurologist to interpret EKG's
\$70,000	The Cancer Treatment Center for providing Radiation Therapy for patients
